Clip	A striking on the heel against the toe of the opposite foot or striking the toe against the heel of the opposite foot. A derivative of the Lancashire Clog.						
Clog	Clog dancing first appeared in the industrial areas of Northern England, Southwest Scotland and South Wales. This form of dancing came into existence around 1870 and is assumed to have originated in Lancashire.						
Clogs	Clogs refers to a wooden-soled shoe and heels and in their final form were made of hard maple. Originally, the sole was one solid piece of wood with the wooden heel attached thereto. This was a rather awkward combination of equipment to dance in and in later years, the split sole came into being. The wooden sole was attached to the welt of the sole and extended back to the instep of the foot. The wooden heel was separate and attached to the leather sole. With the development of the split sole, the dancer had the flexibility to execute much more complicated footwork.						
Coffee Grinder	A flash step that is executed from a squat position with the R leg extended forward an straight, R heel touches the floor. L hand is on the floor on the L side of the R leg and the R hand is on the floor to the R side of the R leg. Keeping R leg straight, start moving the R leg in a circle to the L. L hand is raised as R leg passes and L hand returns to the floor beside R. At this point, the L leg steps over the R (remaining in a squat position) R leg continues circle L and as the leg approaches the completion of the circle, the R hand is raised as the leg passes to forward position. R hand returns to floor on R side of R leg. Movement can be executed as many times as desired, in either direction.						
Cluster	Not a commonly used term but usually referred to a flurry or group of tap sounds performed in rapid succession.

Tap Definitions

Waltz Clog	A dance in 3/4 time. Originally performed in clogs (wooden soles and heels of maple) which beat out a rhythm upon the floor. This form of dance today is usually performed in shoes with metal taps attached; has become a form of tap dancing. May refer to a Waltz Time Step.
Wings	A wing, in the general sense of the word, is a movement executed on one foot while the other foot is in the air: With the toe of the supporting foot turned inward, brush the foot outward in a swishing movement, executed on the outer edge of the sole (AST lifting body upward in the air) then execute a back brush step on the descending movement (3 sounds). Some dancers, on the outward swishing movement, force the ankle to roll out.
	Double Wings: This movement is executed almost simultaneously but not quite. One foot should move slightly ahead of the other foot in order to achieve six distinct sounds.
	Russian Wings: Sometimes referred to as "Squat Wings." Throw both feet forward
	Scratch Wings: Same as Swap Wings.
	Swap Wings: With the weight on one foot, execute the first two sounds of the Wing
